WHAT IS A BLANCO UNIT?

Everything you need, all in one place.

BLANCO UNIT
drink. prep. clean.

A BLANCO UNIT is a seamless, fully integrated, kitchen water place solution designed to make everyday life in the kitchen easier. The combination of a BLANCO sink, mixer tap, cabinet organization and accessories streamlines how people operate in the kitchen and enhances their experience with water. Everything needed to drink, prep and clean is all in one place.

The water place plays a vital role in kitchen activities, over 60 percent of kitchen time is spent in this space. The BLANCO UNIT meets peoples needs by being a source for drinking and cooking assistance, a place for food preparation and a system for cleaning up life's messes.

There are endless opportunities to customize a BLANCO UNIT based on design and functional preferences. Look to our suggestions to build a combination that resonates with your customers style and lifestyle.

Founded in 1925 in Oberderdingen, Germany, BLANCO has over 95 years of international experience bringing high-quality products and solutions to the kitchen.

GERMANY
SINCE 1925

HOW TO CHOOSE A BLANCO UNIT

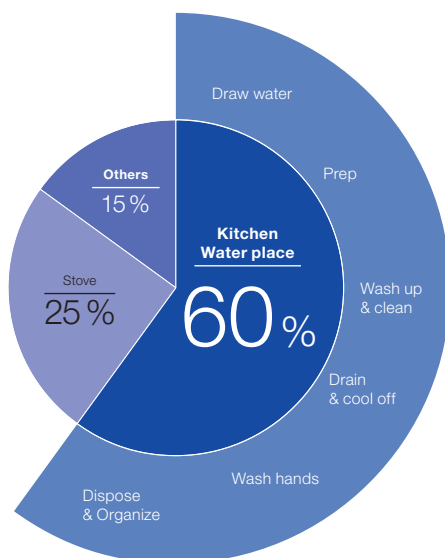

Seamlessly integrated sink, mixer tap and cabinet organization.

Planning a kitchen

Kitchen planning starts with people. From eager foodies to gourmet chefs, we all actively use kitchens and appreciate them as the heart of our homes. We are all different, but we all want to enjoy the time we spend in the kitchen.

Once the placement of the cooking, storage and water areas in the kitchen has been determined, choosing the right BLANCO UNIT for the kitchen water place has a great impact on how joyful the kitchen will be.

The key role of the kitchen water place

The busiest area in the kitchen is the water place, where we spend over 60% of our time. A BLANCO UNIT makes the planning of this area easy and the installation stress-free. All components fit together and are efficiently installed in the sink cabinet. In daily kitchen use, the components of a BLANCO UNIT work together to provide pleasing workflows and a beautiful look.

Style, colour and material combinations are key factors in building the right kitchen water place. Choose from our wide selection of styles, colours, materials and features to create an appealing BLANCO UNIT that matches the desired kitchen design style and it is easy to install.

A BLANCO UNIT starts with a sink

There are strong trends in kitchen design for various sink styles, but the decision should be made based on how the water place will be used. There are many options to consider: single bowl or double bowl, with or without drainer, undermount, inset or flushmount, Silgranit, stainless steel or ceramic. With so many great options, it helps to take a few minutes to consider the needs and priorities.

Mixer tap styles, features & finishes

Our high-quality mixer taps are easy to use and durable. With a wide range of designs and finishes, very useful features like extendable spray head or water filtering, and even special models for window installation, determine what style will fit the design of your customers' kitchen and meet their daily needs in the kitchen. Make sure to consider critical dimensions like height and reach. This will ensure there is adequate clearance above the mixer tap and that it's proportionate to the size of the sink.

Enhance with functional accessories

Find the right accessories that support the way your customer will use their kitchen. Enhance their UNIT with a matching soap dispenser, a strong cutting board that can be placed over the sink or a foldable grid and create a seamless workflow experience. Accessories will help customize a UNIT to meet specific needs.

Maximize the base cabinet

The combination of a BLANCO mixer tap and sink has benefits that will last a lifetime, but to truly make the most of this area, you must organize it! Sink cabinets have great potential for optimizing workflows by keeping cleaning products and/or recycling items organized and easily accessible, providing a clean, flexible solution right where it's needed.

Get inspired

As a starting point, we recommend finding a UNIT Inspiration on the following pages. They contain a curated selection of products that seamlessly combine to create amazing kitchen water place experiences. Turn daily chores into joyful moments with a practical and beautiful BLANCO UNIT.

Turn the next page to find our UNIT Inspirations.

UNIT Inspiration

- Appealing BLANCO UNIT in a warm grey shade; the tone-in-tone combination of the mixer tap and sink are ideal for a kitchen in warm greys or browns.
- The elegantly formed undermount bowl and the minimalist design of the mixer tap set modern accents in a premium kitchen.
- The food-waste disposer is safely attached to the sink drain and conveniently disposes of leftovers quickly and easily.
- Easy workflows at the kitchen water place thanks to a mixer tap with extendable spray head, a generous undermount bowl and an advanced food waste disposer, all efficiently fitted in a 60 cm cabinet.

- BLANCO UNIT combining an understated soft white colour with luxury details in satin gold, creating a beautiful harmony of tones for the kitchen water place.
- The large-format undermount sink and the straight-lined tap place the focus on the worktop. This UNIT is ideal in combination with glamorous worktops in stone, marble, or quartz.
- Advanced drink, prep and clean workflows thanks to the combined advantages of its mixer tap with extendable spray-head, its large sink and its cabinet systems with 2 bins, all efficiently fitted in an 80 cm cabinet.

UNIT Inspiration

- This UNIT is easy to use and adaptable, maximising the workspace in a standard cabinet size.
- The mixer tap and bowl interact to provide an extended working space with water reaching in and around the bowl area.
- The interior cabinet organisation system below the sink grants effortless tidiness and easy waste separation, while keeping cleaning products at reach, but out of sight.
- A wide selection of accessories helps to customise this UNIT. Add a cutting board that can slide over the bowl for improved ergonomics or a floating grid that can be placed in the bowl to create an extra working space. You can add a personal touch to your UNIT with the right accessory.

- This UNIT is easy to use and adaptable, and makes the best use of a 80 cm cabinet for all those who need a large kitchen water place.
- The mixer tap and bowl interact to provide an extended working space with water reaching in and around the bowl area.
- The double bowls with the tap in the middle enable tandem working with easy access to the water, making preparation in various stages very easy.
- The interior cabinet waste management system provides easy waste separation in three bins integrated in just one drawer, leaving one drawer free for other uses.

BEAUTIFUL. STRONG. CLEAN.

SILGRANIT® kitchen sinks and bowls.

Bowls
SILGRANIT

Silgranit sinks are adored around the world for their exclusive styles and designer colour palette.

The kitchen has become a central point in our homes and a reflection of our lifestyles. With a wide range of styles from proven classics to exclusive award-winning designs, available in a broad selection of configurations and sizes, you can find the right Silgranit sink or bowl to create your customer's dream kitchen.

Thanks to the combination of beautiful design and an impressively resilient, easy-care surface, a Silgranit sink is the ultimate choice for long-lasting kitchen bliss. A Silgranit sink is resistant, easily dealing with domestic use including cutlery scratches, de-frosting food, boiling water and even hot pans and trays.

Silgranit is the clean hero in your kitchen. Its surface is food-safe and repels water, making it easy to keep spotless. What's more, the hygienic test* of the material Silgranit has shown that it inhibits the formation of microbial biofilms and the growth of microorganisms on the material over time. Set your heart on a beautiful Silgranit sink to make kitchen life easier everyday.

Regular internal quality checks in the production of our Silgranit sinks and bowls confirm the high standards that we set ourselves, and ensure you products you can rely on.

* Tests carried out by DHZ (German Hygiene Certificate GmbH) on behalf of and financed by BLANCO GmbH + Co KG with Bacillus subtilis, Escherichia coli, Pseudomonas aeruginosa and Staphylococcus aureus in April 2022. More details on the tests are available at blanco.com.

BEAUTIFUL COLOURS.

Bowls
SILGRANIT

Discover SILGRANIT®'s beautiful colour palette.

Silgranit's beautiful, smooth surface is available in a range of design-oriented colours that won't fade. Colour is such an important part of our lives, especially within our homes. It is a fundamental aspect of interior design, and we use colour as a form of creative expression. It has the power to uplift, energise, soothe and awaken.

Be inspired and create adorable kitchens with a spectrum of Silgranit shades, available in our bowls, sinks and mixer taps portfolio.

coffee

Make a stylish statement in the kitchen.

Coordinating the colours of the mixer tap and the sink makes each BLANCO UNIT unique. Silgranit-look mixer taps can be combined with Silgranit sinks in colour-coordinated match. Mixer taps in different finishes set particularly harmonious accents, giving the kitchen a special flair with the BLANCO UNIT at its heart.

SILGRANIT® NEW WARM COLOURS

Bowls
SILGRANIT

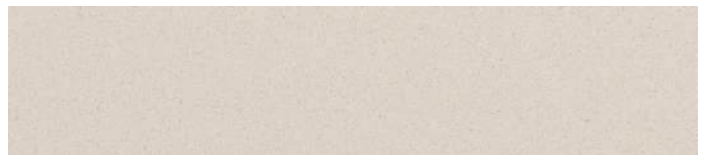

Moments of joy with warm colours.

It is THE trend in kitchen design: warm neutral colours. The Silgranit colours volcano grey and soft white create a warm atmosphere and are particularly easy to combine with similar shades in the kitchen. Calming and appealing colours pave the way for relaxed moments. And, with a broad portfolio of sinks and mixer taps in Silgranit colours, it is very easy to create a dream kitchen.

Breathtaking sinks in Silgranit volcano grey and functional mixer taps in the same colour create an appealing modern dream kitchen. Silgranit volcano grey sets harmonious accents when combined with black matt mixer taps.

Soft white sinks combined with soft white mixer taps make a subtle statement and place focus on the essentials. Silgranit soft white combined with mixer taps in satin gold ensures luxurious harmony.

NOT JUST A BOWL.

Some of the most admired SILGRANIT® families are bowls.

ETAGON

A space for simple brilliance

Thanks to its two versatile rails, the cleverly designed range of ETAGON kitchen bowls offer three working levels that can be used at the same time. This ensures greater convenience and efficiency, while also providing optimum results.

SUBLINE

The designer line of bowls

The extensive SUBLINE family of bowls, brings all possibilities in undermount and flush mount for a designer take on minimalistic or Scandinavian style. Small bowls that can be combined as undermounts or you can choose double bowls with low-divide or cascade. Extended design opportunities in a line that plays its master role in combination with the worktop.

PLEON

Large volume, elegant options for inset bowls

Featuring straight lines and plenty of space, the PLEON series has a depth of 220 millimetres and fits perfectly into a vast array of kitchens. A range of optional accessories have been designed for the PLEON family to assist you with your cooking preparations at the sink.

NAYA

The functional kitchen bowl with the big heart

The NAYA kitchen bowls provide space for family meal prep while fitting bulky cookware. Sleek forms make them easy to clean and create an inviting atmosphere in nearly any style or size kitchen. Choose any colour of velvety robust Silgranit, adding matching mixer taps, practical accessories and an in-cabinet waste organisation system to customise your BLANCO UNIT. NAYA creates stress-free space at the heart of your kitchen.

BLANCO BOWL RANGE.

Myriad designs, materials and installation options.

Bowls
SILGRANIT

BLANCO offers myriad bowls in different sizes, for all standard base cabinet dimensions. As well as single bowls, there are also models with two bowls or a smaller additional bowl. You can choose the bowl design that works best with your style of décor, all the way from classic to linear and modern.

So as to meet all of our customers' desires, BLANCO offers bowls in all three of the standard materials: Stainless steel, Silgranit and Ceramic. Materials and colours can be selected to work with their surroundings, whether that means matching shades or choosing an accent colour. You can also choose from a range of options when it comes to installing the bowl. Many models can be installed using different methods.

The classic option is installation from above. This is suitable for all worktop materials and allows swift and straightforward installation.

Lots of bowls can also be installed with a flushmount method, thus eschewing any troublesome edges.

The bowl has an elegant, flushmount look when installed from above with an IF-flat rim, even into laminate worktops.

Installation from below is very popular for worktops made of natural or artificial stone. Stepless installation creates a harmonious overall look.

BLANCO SUBLINE-U

SILGRANIT

Installing a kitchen mixer tap, drain remote control or soap dispenser in laminate worktops requires a flexible sealing tape.

Note: for worktop thicknesses of 15 mm and over, a space for the overflow must be cut out on the underside.

Please note the cut-out information for the respective installation method.

FLUSHMOUNT INSTALLATION.

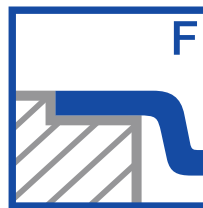

For those who love easy-care modern design.

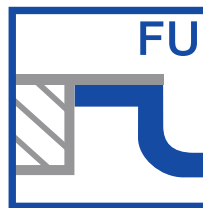

With flushmount installation, the bowl and worktop form a functionally streamlined unit, without any raised edges. This allows the worktop to be cleaned to perfection – simply wipe wiping water or crumbs, for instance, into the bowl. The stepless transition between bowl and worktop expands the usable working area around the bowl. Together with the functional benefits of the flushmount installation, the pared-back look is particularly striking. Modern, uniform kitchen designs work particularly well with flushmounted bowls.

BLANCO offers an exquisite selection of Silgranit bowls for flushmount installation. Thanks to BLANCO's integral colour concept, flushmount installed bowls create a coordinated look between the bowl, tap and worktop.

Flushmount installation: visual unity between bowl and worktop with no raised edges – harmonious and contemporary.

Flush undermount installation: almost smooth installation from below for a modern and elegant look.

BLANCO DALAGO 8-F SILGRANIT

- Large bowl offers a lot of space for food preparation and rinsing
- Continuous tap ledge protects the worktop from water drops
- Modern design with clear lines

COLOURED COMPONENTS SYSTEM

Design and colours in balanced harmony.

Bowls
SILGRANIT

Every human being is unique and individual – just like every living situation and personal taste. That's why we believe that the kitchen and, above all, the water place should also be just as unique and individual. The new BLANCO Coloured Components system offers individualists and design fans maximum flexibility to customise their own kitchen water place according to their wishes. Thanks to this system, you can combine the individual components yourself, coordinate them with each other and thus create your own individual look. This turns every kitchen into a very personal oasis of well-being with visually appealing custom colour combinations.

In extraordinary harmony

You can create your own look and bespoke colour combination with the perfect blend of colours. Combine contrasting colours for the tap, sink and outlet or go for a more uniform tonal look – check out the many options! Give your kitchen an elegant look with the beautiful BLANCO colours. When it comes to creating an exceptional ambience, every detail and dash of colour counts. Inspired by modern living trends, we've created new and harmonious colour palettes that fit every type of kitchen and are perfect for everyone keen on an individual look. Whether timeless, modern or trendy, with the BLANCO Coloured Components, every kitchen looks fresh and unique.

Simplified order process

All our sinks and bowls come with waste fittings and drainage components in timelessly elegant stainless steel. For a selected range of bowls, there's also the option of choosing from waste fittings with coloured drainage components in different tinted metal finishes – the perfect match for taps with a tinted metal finish. For these, the bowl and waste fittings, including the drainage components, are ordered individually with two separate article numbers.

CLASSIC. TIMELESS. BEAUTIFUL.

Stainless steel sinks and bowls.

Bowls
stainless steel

Stainless steel sinks are timeless and elegant, and often the preferred material of kitchen planners. Besides its properties for preparing food and cleaning dishes, stainless steel also offers plenty of design options and product features, like rounded or tight corners, different bowl depths and sink shapes. A wide range of styles opens up endless possibilities to find the right sink for every kitchen, while the neutral tones of stainless steel blend harmoniously with any kitchen environment.

Stainless steel is a hygiene expert, its surface is smooth, tough and pore-free, making it easy to clean. The premium quality of the BLANCO stainless steel makes our sinks safe for food use. It also has a natural resistance to common household acids and stains, e. g. coffee, tea, fruits, and vegetables. Making food preparation on its surface, carefree.

Stainless steel is robust. Dishes or vases that drop onto it will not break easily. Putting hot cookware or pouring off boiling water into the sink won't affect the heat-resistant surface. With minimum care needed, stainless steel sinks will retain their brilliance and perform for decades.

DARK STEEL

Back-to-the-roots design.

Bowls
stainless steel

Our ZEROX and CLARON bowls in Dark Steel are absolute purists when it comes to design and getting back to the essentials. They are characterised by their pared-back, linear design and thus offer an eye-catching kitchen feature for all fans of minimalist styles, clean lines and dark materials. The Dark Steel models pair perfectly with modern kitchens that feature elegant dark colours or can be used to create colour contrasts by combining with an array of colours and materials.

The well-shaped corners, which create a characterful angular look, are instantly eye-catching, while the elegant Dark Steel surface with its velvety, shimmering dark grey blends harmoniously into modern kitchen environments with dark colours, creating exceptional accents in the kitchen. The Dark Steel models are impervious to superficial scratches, easy to clean and boast high-quality features, making them the ideal everyday companion for modern kitchen use.

With their strikingly accentuated 0 mm or 10 mm radii, ZEROX and CLARON take things back to the essentials without sacrificing any practical advantages. The clear linear design and extra-deep dimensions make optimum use of the space in the bowl. The Dark Steel models are available as U-models, with the substructure beneath the worktop, and as IF-models with a brushed stainless steel rim – ideal in combination with stainless steel taps.

ZEROX and CLARON aren't just extraordinarily elegant and an eye-catching feature in any kitchen thanks to their special design, but also impervious to superficial scratches and fingerprints. Thanks to its special surface texture, Dark Steel is easy to clean and maintain. Whether as a single IF bowl in two different sizes or as an understated undermount bowl, BLANCO ZEROX and CLARON boast characterful surfaces and design.

Our Dark Steel models offer elegant, shimmering stainless steel surfaces in dark grey metallic that can be combined in a variety of ways and pair particularly well with modern kitchens in dark materials – for an exclusive style. The natural chrome oxide layer of stainless steel is enhanced in our innovative process so that the surface has a dark reflection.

BRILLIANT: THE MULTI-LEVEL BOWL.

BLANCO ETAGON.

Bowls
stainless steel

One bowl, two rails, three functional levels. This new functional level concept from BLANCO transforms a bowl into a fully-fledged sink. The integrated step allows the bowl to be used in parallel on 3 levels: in the bowl itself, on the bowl step and on the edge, thanks to carefully designed accessories and clever details.

As such, BLANCO ETAGON combines this functionality with a top-class aesthetic. The bowl's elegant radius design and high-quality equipment, with the hidden C-overflow and the innovative InFino drain system takes modern kitchens to the next level.

The rails transform your ETAGON sink into a work station. The truly remarkable thing is the system concept combining the bowl geometry and the ETAGON rails. Made of high-quality stainless steel, they support the intermediate level, where they have multiple uses: you can put things down or fill them up with ease, also as a support for cleaning trays in the bowl or as the perfect place to dry and store items such as pot lids, drinking bottles or dishwashing utensils. The heatresistant ETAGON rails can also be used as a trivet on your worktop.

For perfect kitchen prep on multiple levels.

ETAGON comes in different sizes and versions, including the tried and tested Silgranit®.

Also available as the BLANCO ETAGON 500-IF for installation from above or flushmount installation.

BLANCO CLARON 400/400-U

Stainless steel

- Elegant-pure bowl design

BLANCO CLARON 700-U Dark Steel Edition

Stainless steel

- Elegant-pure bowl design with striking, dark grey surface
- Pleasantly warm feel thanks to high-quality, pure, non-coated stainless steel
- In this edition, seamlessly coordinated look with fittings in elegant satin dark steel (C-overflow and InFino drain system)
- Concise 10 mm radius for a more refined design, without doing away with practical benefits
- Optimum utilisation of the bowl capacity thanks to extra-deep bowls and distinctively small radii
- Surface is easy to clean: Fingerprints and dirt are easy to remove

BLANCO CLARON 500-U Dark Steel Edition

Stainless steel

- Elegant-pure bowl design with striking, dark grey surface
- Pleasantly warm feel thanks to high-quality, pure, non-coated stainless steel
- In this edition, seamlessly coordinated look with fittings in elegant satin dark steel (C-overflow and InFino drain system)
- Concise 10 mm radius for a more refined design, without doing away with practical benefits
- Optimum utilisation of the bowl capacity thanks to extra-deep bowls and distinctively small radii
- Surface is easy to clean: Fingerprints and dirt are easy to remove

Bowls ceramic

BLANCO Ceramic bowls.

The BLANCO Ceramic bowls create a pleasant, homely atmosphere. They appeal for their flowing lines and glazed surfaces.

BLANCO Ceramic blends happily both in traditional and modern kitchens. In crystal white or magnolia glossy tones, the ceramic bowls bring a friendly welcoming look to the country style kitchen. For modern designs or a modern-take on farmhouse, the ceramic bowls in black and basalt hues make a statement.

- The special properties of BLANCO Ceramic PuraPlus:
- Unbeatably easy to look after
 - Resistant to impacts and blows in domestic use
 - Resistant to scratching and stains
 - Full-tone colours, matt or gloss
 - Manufactured with traditional methods
 - Heat resistant in domestic use
 - Suitable for food use and hygienic
 - Resistant to food acids
 - Resistant to light – even direct sunlight

Regular internal quality checks confirm the high standards that we set ourselves, and ensure you products you can rely on.

DEVOTED TO CERAMIC.

The most beloved Ceramic families.

Bowls ceramic

SUBLINE

The designer line of bowls

The SUBLINE family of bowls, includes Ceramic bowls for undermount installation. Elegant bowls for extended design opportunities where the worktop takes the main role. The SUBLINE Ceramic bowls are available in all four Ceramic colours.

PALONA

A modern classic with extras

PALONA, our purist classic in Ceramic, comprises a spacious XL bowl with a continuous tap ledge, giving you plenty of room even when space is at a premium. Thanks to its flat rim, PALONA can be integrated perfectly into any style of kitchen. PALONA is available in all four Ceramic colours.

BEAUTIFUL. STRONG. CLEAN.

SILGRANIT® kitchen sinks and bowls.

SILGRANIT
Sinks

Silgranit sinks are adored around the world for their exclusive styles and designer colour palette.

The kitchen has become a central point in our homes and a reflection of our lifestyles. With a wide range of styles from proven classics to exclusive award-winning designs, available in a broad selection of configurations and sizes, you can find the right Silgranit sink or bowl to create your customer's dream kitchen.

Thanks to the combination of beautiful design and an impressively resilient, easy-care surface, a Silgranit sink is the ultimate choice for long-lasting kitchen bliss. A Silgranit sink is resistant, easily dealing with domestic use including cutlery scratches, de-frosting food, boiling water and even hot pans and trays.

Silgranit is the clean hero in your kitchen. Its surface is food-safe and repels water, making it easy to keep spotless. What's more, the hygienic test* of the material Silgranit has shown that it inhibits the formation of microbial biofilms and the growth of microorganisms on the material over time. Set your heart on a beautiful Silgranit sink to make kitchen life easier everyday.

Regular internal quality checks in the production of our Silgranit sinks and bowls confirm the high standards that we set ourselves, and ensure you products you can rely on.

* Tests carried out by DHZ (German Hygiene Certificate GmbH) on behalf of and financed by BLANCO GmbH + Co KG with Bacillus subtilis, Escherichia coli, Pseudomonas aeruginosa and Staphylococcus aureus in April 2022. More details on the tests are available at [blanco.com](https://www.blanco.com).

BEAUTIFUL COLOURS.

SILGRANIT Sinks

Discover SILGRANIT®'s beautiful colour palette.

Silgranit's beautiful, smooth surface is available in a range of design-oriented non-fading colours. Colour is such an important part of our lives, especially within our homes. It is a fundamental aspect of interior design, and we use colour as a form of creative expression. It has the power to uplift, energize, soothe and awaken.

Get inspired and create adorable kitchens with a spectrum of Silgranit shades available in our bowls, sinks and mixer taps portfolio.

Make a stylish statement in the kitchen.
 Coordinating the colours of the mixer tap and the sink makes each BLANCO UNIT unique. Silgranit-look mixer taps can be combined with Silgranit sinks in colour-coordinated match. Mixer taps in different finishes set particularly harmonious accents, giving the kitchen a special flair with the BLANCO UNIT at its heart.

SILGRANIT® NEW WARM COLOURS

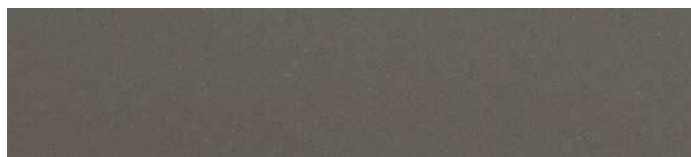

SILGRANIT
Sinks

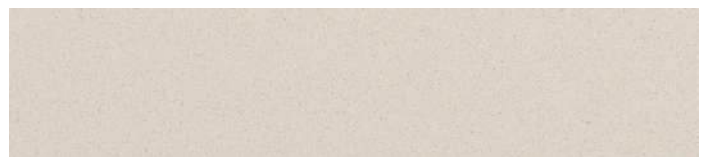

Moments of joy with warm colours.

It is THE trend in kitchen design: warm neutral colours. The Silgranit colours volcano grey and soft white create a warm atmosphere and are particularly easy to combine with similar shades in the kitchen. Calming and appealing colours pave the way for relaxed moments. And, with a broad portfolio of sinks and mixer taps in Silgranit colours, it is very easy to create a dream kitchen.

Breathtaking sinks in Silgranit volcano grey and functional mixer taps in the same colour create an appealing modern dream kitchen. Silgranit volcano grey sets harmonious accents when combined with black matt mixer taps.

Soft white sinks combined with soft white mixer taps make a subtle statement and place focus on the essentials. Silgranit soft white combined with mixer taps in satin gold ensures luxurious harmony.

ABOUT A KITCHEN SINK.

A few of the most admired SILGRANIT® sink families.

AXIA III

Simple multi-axis ergonomics

To fulfil the highest requirements in everyday kitchen life, AXIA sinks provide plenty of comfort and help make kitchen tasks flow easily. On the AXIA III 6 S sink the chopping board slides freely above the drainer and the bowl area, and, when combined with the diagonally hung multifunctional colander, creates a comfortable food preparation station.

ZENAR

Timeless aesthetics with modern functions

The ZENAR sinks feature a large bowl, which accommodates even cumbersome dishes or baking trays without any problem. The smooth transition to the drainer also provides convenience and an appealing look. Thanks to its surrounding flat rim and continuous tap ledge, ZENAR's timeless elegance comes into its own in any kitchen.

The ZENAR SteamerPlus models provide a great solution for a smooth workflow of food preparation for steam cooking.

METRA

Clean lines and convenience

With its straight-lined design, the METRA sink range looks perfect with all sorts of kitchen styles. The flat rim fits perfectly into any setting. What's more, the spacious METRA sinks offer plenty of space thanks to their large, deep bowls and practical draining area.

ADIRA

Modern design with superior functionality

BLANCO Adira with Silgranit surfaces is a modern sink concept which, equipped with clever accessories, simplifies food preparation in the sink and turns your kitchen into a fully-fledged work area. With its accessories and high-quality finish, the ergonomic sink enables seamless workflows along your worktop and allows maximum flexibility in installation and your kitchen planning. Adira is designed for everyday use and effectively combines elegant and stable design with numerous features for everyday kitchen use. The practical and multifunctional container bin makes it easy to prepare your food without lots of extra handling, and the Adira grid makes it easy to clean and dry food and dishes.

FLUSHMOUNT INSTALLATION.

For those who love easy-care modern design.

Flushmount installation

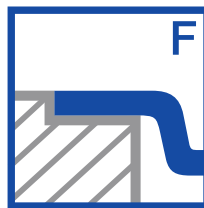

SILGRANIT Sinks

With flushmount installation, the sink and worktop form a functionally streamlined unit, without any raised edges. This allows the worktop to be cleaned to perfection – simply wipe water or crumbs into the sink. The stepless transition between sink and worktop expands the usable working area around the sink. Together with the functional benefits of flushmount installation, the pared-back look is particularly striking. Modern, uniform kitchen designs work particularly well with flushmounted sinks.

BLANCO offers an exquisite selection of Silgranit sinks for flushmount installation. Thanks to BLANCO's integral colour concept, flushmount installed sinks create a coordinated look between the sink, tap and worktop.

Flushmount installation: visual unity between sink and worktop with no raised edges – harmonious and contemporary.

Flush undermount installation: almost smooth installation from below for a modern and elegant look.

BLANCO AXIA III 6 S-F

SILGRANIT

- Smooth, ergonomic work flow along two axis
- Design that is notable for clear lines and the ultra-narrow rim
- Tight radii for maximum utilisation of the surface and volume
- Movable chopping board for working directly into cooking dishes
- Multifunctional colander can also be freely positioned in the main bowl for easy food preparation
- High-quality features with drain remote control, covered C-overflow and InFino drain system – elegantly integrated and easy-care

CLASSIC. TIMELESS. BEAUTIFUL.

Stainless steel sinks and bowls.

Stainless steel
sinks

Stainless steel sinks are timeless and elegant, and often the preferred material of kitchen planners. Besides its properties for preparing food and cleaning dishes, stainless steel also offers plenty of design options and product features, like rounded or tight corners, different bowl depths and sink shapes. A wide range of styles opens up endless possibilities to find the right sink for every kitchen, while the neutral tones of stainless steel blend harmoniously with any kitchen environment.

Stainless steel is a hygiene expert, its surface is smooth, tough and pore-free, making it easy to clean. The premium quality of the BLANCO stainless steel makes our sinks safe for food use. It also has a natural resistance to common household acids and stains, e. g. coffee, tea, fruits, and vegetables. Making food preparation on its surface, carefree.

Stainless steel is robust. Dishes or vases that drop onto it will not break easily. Putting hot cookware or pouring off boiling water into the sink won't affect the heat-resistant surface. With minimum care needed, stainless steel sinks will retain their brilliance and perform for decades.

CLARONLINE.

Elegantly pure stainless steel sink and bowl design.

Stainless steel
sinks

With its elegantly pure design, BLANCO CLARON combines striking visual impact and functionality. The stylish design of the bowls and sinks, featuring concise corner radii of only 10 mm, looks wonderfully elegant and thus blends harmoniously into modern, pared-back living environments.

This large range of sinks and bowls is available with Durinox and stainless steel satin polish surfaces, as well as in a variety of sizes, with or without a tap ledge. The models are suitable for undermount, flushmount or flat installation from above.

Generously-sized CLARON bowl with flat IF rim, installed from above.

CLARON Durinox bowl with integrated tap ledge and PushControl drain remote control.

CLARON undermount bowl, available in a variety of sizes and two surface finishes.

TECHNICAL INFORMATION.

Bowls and sinks with or without tap ledge

**550 series
8 S models
Steamer Plus**

BLANCO CLARON 550-IF/A, 550-IF, 550-U
BLANCO CLARON 8 S-IF
BLANCO ZEROX 550-IF/A
BLANCO ZEROX 550-IF
BLANCO ZEROX 550-U

If fitting CLARON models of the 550 series in a 60-cm wide base cabinet, the side panels will have to be cut out.

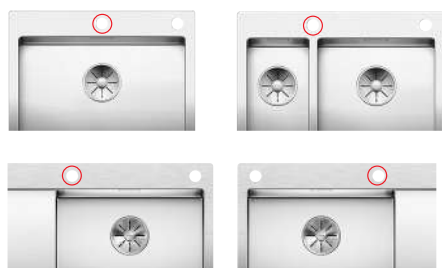

If fitting 8 S models in an 80-cm wide base cabinet, the side panels will have to be cut out.

**Worktop thickness
on IF models and sinks**

BLANCO FLOW-IF
BLANCO CLARON-IF/A
BLANCO ZEROX-IF/A

IF models with an integrated tap ledge can only be used with worktops of 30 mm thickness or more.

**Taps mounted
on IF models with tap ledge**

On all models with an integrated tap ledge, the mixer tap must be positioned as shown here:

- Single and double bowls: in the left-hand tap hole
- Sink main basin on the right: in the left-hand tap hole
- Sink main bowl on the left: in the right-hand tap hole

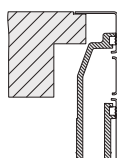

**Taps mounted
behind the overflow**

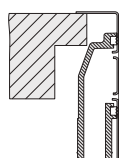

Warning! The following products cannot be mounted behind the overflow:

- Mixer tap BLANCO ELOSCOPE-F II
- BLANCO soap dispenser, e.g.:
 - BLANCO PIONA
 - BLANCO TORRE
 - BLANCO LATO

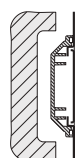

**Cut-out on IF models
with C-overflow**

View of
flushmount
installation

View of
installation from
above

View of cut-out
from above

If fitting the models BLANCO CLARON-IF and ZEROX-IF with C-overflow, the worktop will have to be cut out accordingly. You will find detailed dimensions and drawings for the various models with the cut-out details on the Internet at www.blanco.com

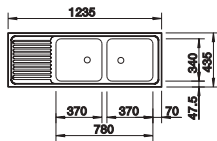

You will find the cutting-out details for every installation method in our Internet download area.

FARMHOUSE-STYLE SINKS.

Nostalgic charm for kitchens.

Familiar shapes, patterns, colours and materials often provide inspiration for new design trends, bringing stylish vintage flair into the home. This return to tradition and high-quality products is particularly apparent with the sought-after modern country style, which exudes permanence and appeals to all of the senses. BLANCO brings this style into the kitchen with its farmhouse bowls. A farmhouse-style sink offers plenty of space. They are ideal for especially cumbersome dishes. Unlike other kitchen sinks, this type of sink protrudes a little from the kitchen cabinets. There's no concealment here. It is solidly striking, and an eye-catching feature.

Farmhouse
Bowls

The perfect solution for a traditional yet modern country house-style kitchen: BLANCO PANOR. In sophisticated crystal white, the PANOR impresses with its elegant lines and large single bowl.

BLANCO VINTERA XL 9-UF

SILGRANIT

- Striking sink with farmhouse flair, ideal for modern kitchen designs
- Extra-large bowl provides plenty of room
- Perfect fit: right-angled apron front fits the width of a 90 cm cabinet
- One model for flush-mount or undermount installation

FILTERED FOR THE FINEST TASTE.

BLANCO drink.filter systems: drinking water with top-quality BWT filter technology.

Filtered to perfection.

When you're really thirsty, there's nothing better. And when you're making tea, creating ice cubes or simply need thirst-quenching glass of pure water, you want to know that you have high-quality water you can rely on. With water purified to the highest standard using premium multi-stage filtration, BLANCO drink.filter systems leave no room for metal particles, or other such impurities found in mains water, to slip through and create bad flavours or odours. You can rest assured each sip is nothing but high-quality, perfectly balanced water - ideal for a healthy lifestyle and day-to-day kitchen life.

drink.systems

drink.filter EVOL-S Pro: combines water filtration and precise amounts of water with click & touch.

Click & touch: the amount of filtered water can be adjusted with the scaling wheel and is activated with the touch sensor – only with the EVOL-S Pro Filter.

Hygienic: all BLANCO filter mixer taps are fitted with separate water channels for filtered water.

BLANCO drink.filter EVOL-S Pro

- 3-in-1 semi-pro mixer tap: cold, warm and filtered water
- Click & Touch: Exact amount of filtered water conveniently set via accurate scaling wheel and intuitive touch control for water consumption on demand
- High-end BWT multi-stage filter reduces lime and improves taste
- Separate outlet for purified drinking water
- Dual spray with precise magnetic holder

AESTHETICS AND FUNCTION IN ALL THEIR FACETS.

BLANCO kitchen mixer taps.

We strive for excellence, particularly when it comes to coordinated tap, sink and waste system. For a seamless water place in the kitchen, both in terms of function and aesthetics, as well as installation and service.

BLANCO offers a wide range of premium mixer taps – for a wide variety of requirements and interior styles. Excellent quality, appealing visual appearance, smart technology and easy operation paired with a choice of sizes and colours make it easy to find the right mixer tap.

BLANCO is highly aware of their responsibility for the most valuable life source – drinking water. BLANCO mixer taps are extensively tested for technology and hygiene, offering one of the highest standards in quality. All water-conducting components are tested and certified.

All components used are made to the latest material developments and technologies, and from the very highest quality materials thus providing maximum safety in terms of health and hygiene. Durability and stability of the components are at the core of our product engineering.

QUALITY DOWN TO THE LAST DETAIL.

BLANCO kitchen mixer taps.

BLANCO kitchen mixer taps are at the cutting edge of technology and are subject to the very strictest quality controls. However, should any problems arise, the BLANCO Service team is at your disposal.

Upgrade – water flow modes

Numerous mixer tap models such as LINUS, LINUS-S or CANDOR can be easily upgraded with the aerator set, which includes a clear spray and aerated jet regulator for high-pressure mixer taps. Please check the compatibility with your customer service before purchasing the BLANCO aerator set.

Item-No. 521746

Installation and care – secure installation and perfect maintenance

- It is recommended that the mixer tap is installed by a licensed professional.
- Do not clean kitchen mixer tap surfaces with caustic or abrasive cleaning aids. We recommend to use BLANCO DailyClean+ Art.Nr. 526305.
- If the water flow becomes weaker, rinse out the jet regulator.

To protect the mixer tap against dirt and damage (leaks, reduced water flow), installing a dirt strainer (included as standard) between the angle valve and connecting hose is essential.

STYLISH ELEGANCE THAT SETS ACCENTS

Whether with black matt, satin gold, satin dark steel or satin platinum: a BLANCO UNIT can suit any style.

The colour you select for your mixer tap and the way you integrate it into your kitchen design and your UNIT can make your style distinctive. Featuring black as an accent colour is more relevant than ever. And it can define your style. The classic black matt colour sets accents without being overpowering – and it has a timeless beauty. The entire surface is powder coated to create an evenness and depth of colour that is sure to impress. Perfectly colour-coordinated pop-ups and soap dispensers are also available and complement the modern look.

Accents in satin gold, satin dark steel or satin platinum give your kitchen the real wow factor, especially around the water place. Our mixer taps and accessories like soap dispensers are made with excellent workmanship and create a fascinating, harmonious overall look with distinctive accents in a minimalist design. The InFino drain sets are also available in matching surfaces to complement the BLANCO UNIT's design, ensuring that the sink can mirror the metallic surface of the fittings.

Coordinating the colours of the mixer tap and the sink makes each BLANCO UNIT unique. Silgranit-look mixer taps can be combined with Silgranit sinks in colour-coordinated match.

FILTER MIXER TAPS.

Hygiene safety and functionality.

Clean water is a part of quality of life. BLANCO's filter mixer taps make an important contribution to this – in combination with a standard filter system that is installed in the base unit. With BLANCO's filter mixer taps, filtered and non-filtered water are controlled by separate control levers. Depending on the particular model, 3-way mixer taps are available with a separate or integrated spout for standard and filtered water. The water qualities run separately.

Mixer taps

BLANCO TRIMA: The modern filter mixer tap.

BLANCO FONTAS-S II: Convenient filter mixer tap in L-spout shape – available in metallic and coloured finishes.

BLANCOCULINA II

Iconic design for home chefs.

As kitchen water place specialists, we have always been especially proud of the BLANCOCULINA design. That's why we have continued to develop our mixer tap and the many different models with loving attention to detail. With its superb design and plethora of practical functions, BLANCOCULINA II for semi-professional use makes the ideal addition to any home cook's kitchen and is perfect for keen amateur chefs. The high, flexible pull-out spout can be rotated 360° for splash-free tasks at the sink. Pots and vases of different sizes to be filled with ease. BLANCOCULINA II is available in many different versions, in a range of beautiful finishes.

BLANCOCULINA-S II

The iconic classic mixer tap combines exquisite design with semi-professional functionality. The high arch and flexible metallic hose offer an optimal range of motion, while the dual spray function lets you choose between a jet mode and a powerful shower spray.

BLANCOCULINA-S II Mini

The BLANCOCULINA-S II Mini is a smaller version of the S II model and offers the same functions in a more compact design. This makes it particularly practical when combined with wall cabinets in the kitchen.

BLANCO CULINA II SENSOR

Practical and versatile.

With their two sensors, the BLANCO CULINA S-II Sensor and Mini Sensor models ensure hands-free washing and filling of pots and other vessels. They're perfect all-rounders in any modern kitchen and the perfect companion for tech-savvy amateur and semi-professional chefs.

Handwash sensor

The touch-free sensor for hand washing isn't just enormously practical and convenient, but also offers a number of other advantages. Working hygienically is more important in the kitchen than anywhere else, as this is where food is prepared. You use your hands a lot in the kitchen. The contactless function allows you to wash your hands without getting finger marks, germs and dirt on the tap. Thanks to the infrared movement sensor on the left-hand side of the tap, the system knows exactly how long the water needs to flow when you're washing your hands. Over the long term, this saves a lot of water – and therefore money – while also protecting the environment.

Pot Filler sensor

The intuitive sensor on the BLANCO CULINA II Pot Filler is the ideal addition for all home cooks. When you place a pot under the sensor, it is automatically filled with water from the tap. The water flow stops automatically when you remove the pot from the sensor. This is very useful when preparing meals and saves water, as you can now carry the pot to the hob without setting it down and having to turn off the tap manually first.

Mixer taps

BLANCO CULINA-S II Sensor

The dual sensor technology integrated into the hose arm and tap body guarantees perfect kitchen workflows like you've never experienced before. The practical high arch and metallic hose offer maximum flexibility when preparing food or performing other kitchen tasks.

BLANCO CULINA-S II Mini Sensor

Especially for kitchens where space is at a premium or lined with wall cabinets, the BLANCO CULINA-S II Mini Sensor is the perfect tap, as it doesn't mean having to forego the practical functions of the larger model.

BLANCO PANERA-S

- Designer mixer tap of striking elegance and material aesthetics
- Distinctive control concept: easy to pull spray hose from the front
- Changes from clear spray to shower at the touch of a button
- Energy-saving: basic setting of the control lever to cold start
- Seamless visual integration of the shower button
- High-quality version in solid stainless steel, brushed finish

Pull-out dual spray

Extendable spray

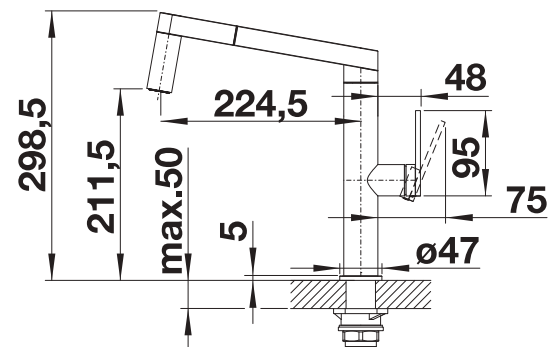

Metallic surface

stainless steel

521547

Technical Drawing

Flowrate 7.2 l/min at 3 bar pressure

Scope of supply

- 160° swivel spout for greater reach
- Ø 35 mm tap hole required
- With ceramic disk cartridge
- Metal-sheathed spray hose
- Flexible connection pipes with a length of 560 mm and 3/8" nut for particularly easy and secure installation
- Patented jet regulator for markedly reduced scaling
- Stabilising plate to increase the stability of the tap when fitted in stainless steel sinks
- With non-return valve and thus guaranteed against reflux in accordance with EN 1717
- LGA approved
- DVGW approved

WINDOW-FACING TAPS.

Assured planning and daily convenience.

The area facing the window is the ideal place for a sink.

Lots of kitchen windows open inwards, so conventional mixer taps would simply be in the way. In such cases, you have to attach the mixer tap to the outer edge of the sink, or ensure that it is low enough for the window to open above it. Window-facing mixer taps that can be detached, retracted or folded down offer a practical alternative. Like conventional kitchen mixer taps, these come in a range of designs.

Retractable mixer taps are elegant solutions for that meet exacting requirements. Concealed in a single movement, they work in every position.

Detachable mixer taps represent a practical, inexpensive option. These feature a flexible hose. This allows you to simply pull the tap vertically out of the sink and lay it to the side of the bowl.

One movement, and your window is free of obstructions. Fold-down window-facing mixer taps are both practical and elegant, while their modern design makes them suitable for any kitchen.

BLANCO ELOSCOPE-F II

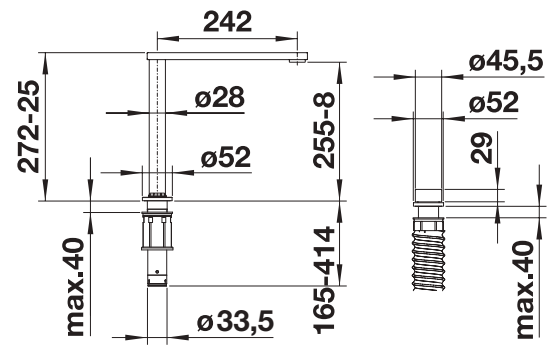

- Suitable for installation beneath window
- Clear, uncompromising design for pioneering kitchens
- For installation in front of window
- High spout for easier filling of pans and vases
- Easily hand-operated
- Only 3 cm min. distance between sink and window aisle
- Uniform tap holes (2 x 35 mm) for tap and operating lever (regardless of installation medium)

Metallic surface		
	chrome	516672

Window solution  Solid spout

ORGA & WASTE SYSTEMS

Everything simplified - for planning addicts

When planning a kitchen, the base cabinet plays a major role. After all, waste, household cleaning agents and food preparation utensils are stored here and used on a daily basis. However, much of the space in the base cabinet is often used inefficiently, with far too little thought given to proper planning. That's why it's important to have systems for sorting waste and other organisation features that make the best possible use of the space in the base cabinet and can be adapted to the individual needs of the user. BLANCO's system concept offers myriad individually coordinated solutions for your everyday requirements and presents various ways to optimise daily workflow in the kitchen. We provide organisation and waste systems in different styles to suit every usage requirement and store everything you need for recycling and kitchen water place use.

Organization systems

Ingenious concepts for organising the most underrated storage space of all: the base cabinet beneath the kitchen sink. We optimise the use of the base cabinet with numerous options and product variants with different storage possibilities to ensure a constantly tidy workplace, perfectly coordinated workflows in the kitchen and work utensils always ready to hand.

Waste systems

Separating waste is becoming more and more important these days as we look to increase the recycling of valuable materials. After all, resources are limited and we should all help to use them as efficiently as possible. That's why BLANCO offers various solutions to separate waste and recyclables as efficiently as possible and store them in the most space-saving way until they are disposed of.

Food waste disposal

Our food waste disposal systems are practical and hygienic solutions to remove food waste from the sink quickly and efficiently at the touch of a button. This prevents the buildup of bacteria or unpleasant odours. Running water from the tap flushes the food residue particles into the system, where they are ground up quietly and efficiently and flow into the sewerage pipe along with the waste water for reliable and hygienic disposal.

Portable storage solutions

Our portable storage systems are ideal for storing sink accessories and consumables such as bags, filters, cartridges, towels and other items, for flexible use in the kitchen and space-saving reinsertion into the base cabinet. They are available for pull-out and hinged doors.

WASTE SYSTEMS

More than just collecting waste

When planning a kitchen, it's important to plan waste systems in addition to storage space. After all, every household produces a certain amount of waste every year, which has to be collected, separated and disposed of. The best way to do this is with a BLANCO waste system. Short of avoiding waste altogether, separating waste is important in our efforts to act as sustainably as possible. Depending on your personal preferences and kitchen set-up, you may need two, three or more waste units for optimum waste separation. The best use of space in the base unit also comes into play here – in a well-planned kitchen, every centimetre really does count. The interplay with the sink and your kitchen tap really matters; everything should be perfectly coordinated. The ingenious solutions from BLANCO more than fit the bill.

For pull-out-fronts

Modern kitchens often feature base cabinets with practical pull-outs. To make efficient use of the depth of the cabinets, we offer a wide range of models for the most common cabinet dimensions. The space-saving systems offer diverse waste separation options thanks to flexible bucket combinations, while optional accessories complement the systems to create bespoke solutions. Thanks to the large, smooth surfaces, all of the parts are very easy to clean.

For hinged doors

Hinged doors can be found in many kitchens, and they can be combined with convenient waste separation systems. The practical and compact systems are available with or without door carriers for automatic opening of the waste system when the cabinet door is opened. There are different versions for the most common cabinet sizes. Despite the compact dimensions, there is no need to do without a large waste volume.

For the worktop

When preparing food, being able to dispose of waste quickly and correctly is a real labour-saver. And it's all the more practical if the distances for disposal are as short as possible. Our BLANCO SOLON allows you to collect kitchen waste right on the countertop with ease, before finally disposing of it in the waste bin.

EASY. CONVENIENT. CLEAN.

Grind organic waste easily with the BLANCO Food Waste Disposer

BLANCO FWDs are hygienic, clean and very convenient when it comes to disposing of leftovers quickly and easily. They cut down the amount of waste in the organic waste bin. Therefore the FWD reduces the growth of bacteria and the likelihood of pests and unpleasant odours in the kitchen. They also lower the amount of material sent to landfill sites.

The BLANCO FWD is installed directly beneath the sink and grinds food waste so finely that there is no risk of the pipes becoming blocked. The FWDs are similar to standard grinders, but they don't have knives or blades. All of the moving parts within the appliance are blunt. The system is conveniently controlled from the top of the sink at the touch of a button – the air switch.

All that is needed for the perfect grinding process is cold water from the tap. The rinsing that occurs during the grinding process also means that the device requires little additional care.

Add an FWD to any BLANCO UNIT for a fully integrated, high-quality kitchen water hub that seamlessly includes hygienic and convenient waste handling.

The system is conveniently controlled from the top of the sink at the touch of a button – the air switch.

Our BLANCO FWD range, in Lite, Medium and Max, fits all BLANCO sinks and bowls.

BASE CABINET ORGANIZATION

Enjoy a neat and tidy base cabinet

With our BLANCO base cabinet organisation products, we offer kitchen owners a beautiful and practical way to organise their base cabinets. The high-quality, easy-to-clean products can be simply installed in standard base cabinets and, thanks to their numerous functions and ingenious features, fit in almost every kitchen layout. The products are perfectly coordinated and are great for combining with each other or with other BLANCO products to make the base cabinet a tidy space.

Thanks to the perfect allocation of space, easy access and portable elements, the base cabinet organisation products make using the cabinet a daily pleasure for the user. All of the products feature an elegant, neutral uniform look in dark grey and aluminium, so the products adapt perfectly to any kitchen style.

Flat Drawer 60

The Flat Drawer is the useful addition for storing sink accessories and consumables such as bags, filters, cartridges, towels and more. Available for pull-out and hinged doors.

Storage Caddy 20

Practical, portable storage caddy for keeping cleaning supplies (bottles, boxes and more). The caddy can be pulled out, taken out and carried with you to use the cleaning products elsewhere.

Universal Bag XL 40

Flexible and resistant XL bag for storing large objects like glass, paper or cans with convenient access. The stable aluminium handles make the portable bag a practical everyday companion in the kitchen or wherever you want.

Storage Caddy 40

This double version of our Storage Caddy 20 is a flexible and durable storage container that can be easily removed, reinserted into the system and carried around. It is particularly suitable for storing and using cleaning utensils such as bottles, boxes and similar items directly under the sink.

MAKING KITCHEN TASKS EASIER

Matching accessories for the kitchen water place.

A sink can be so much more than the place where dishes and food are cleaned. With our ingenious accessories, it can be transformed into a multifunctional workplace in just a few simple steps. Streamlined workflows eliminate the need for unnecessary actions, making preparing food a breeze. This option offers a very practical additional benefit, especially in small kitchens.

A practical accessory for every sink is a colander. When hung in the bowl, it can be used to temporarily store prepared or cleaned food or cleaned dishes and cutlery.

A cutting board increases the work surface and can be flexibly positioned and moved over the sink.

The floating grid can be used to create an additional functional level. Ideal e.g. for draining crockery or washing food.

PERFECT CARE MADE EASY.

BLANCO CARE cleaning and care products.

BLANCO sink and mixer tap surfaces are resistant and attractive. To ensure that they stay that way for as long as possible, they should be cleaned and cared for on a regular basis. BLANCO CARE cleaning and care products allow you to achieve this in a lasting and sustainable way. The products are easy to use and have been ideally formulated for BLANCO surfaces.

Achieve an optimal result in just three steps:

- daily cleaning with standard household cleaning products, e. g. washing-up liquid and a microfibre cloth
- regular cleaning with DailyClean+
- deep-cleaning with special cleaners designed for specific materials, from the DeepClean range.

BLANCO CARE cleaning and care products have formulas optimally suited to BLANCO sink and mixer tap materials.

All products are specially developed for BLANCO materials and undergo intensive testing by our Research and Development department.

The professional limescale remover DailyClean+ gently cleans all sink and mixer tap surfaces.

DeepClean Silgranit Set is used for removing grease and starch deposits on Silgranit sinks and bowls. It reduces and removes discolouration, longer-lasting stains and stubborn dirt.

DeepClean Stainless Steel is used when blemishes or minor scratches on stainless steel sinks require more intensive care.

DeepClean Ceramic gets rid of grease and limescale, removes dirt and metal abrasion, and polishes and preserves the material.

BLANCO CARE. Cleaning and care products

DailyClean+

- Professional limescale remover for all sink and mixertap surfaces
- Gentle – suitable for everyday use
- Do not use on surfaces that are sensitive to acid. Follow the manufacturer's care instructions. In if doubt, test it first in an inconspicuous place.

BLANCO DailyClean+ 150 ml

526305*

*Not in all countries available. For further information please contact your BLANCO partner.

Accessories for BLANCO sink programmes

Foldable grid

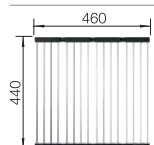

- Can be placed on the drainer, over the bowl or on the worktop
- Extends the versatility of the sink centre, e.g. for draining washed items or filling up pots
- Variable positioning on the drainer, in the bowl or outside the sink
- Easy to stow away thanks to the practical folding function

For sinks and bowls with a bowl width of 400 mm

238482

For sinks and bowls with a bowl width of 420 mm

238483

Corner caddy

- Rinsing and draining high-quality plastic colander for food and crockery
- Practical storage for washing utensils
- Variable placement with secure grip
- Efficient and flexible use of the bowl

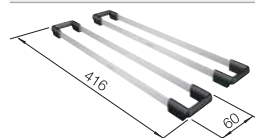

Recommended for BLANCO DALAGO, METRA and PLEON

235866

Top rails

- Positioned at the edge of the bowl, the Top-Rails create a bridge over the sink and provide a second level for working
- Further possibilities of use on the worktop (e.g. as a trivet)
- Made of high-quality stainless steel

Recommended for BLANCO SUBLINE and PLEON SILGRANIT and also for ANDANO, SUPRA, CLARON and ZEROX

235906

Accessories for BLANCO sink programmes

Floating grids

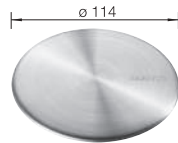

- When attached to the bowl, the floating grid provides an additional functional level
- Very useful for draining crockery or washing food, or as a trivet on the worktop
- Made of high-quality stainless steel

Recommended for BLANCO PLEON and SUBLINE SILGRANIT and Ceramic

234795

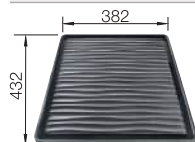

CapFlow

- Aesthetic cover for outlet
- Fully functional basket strainer
- Versatile use on any sink with 3 1/2" outlet
- Not compatible with the InFino drain system

517666

Lay-on wave drainers

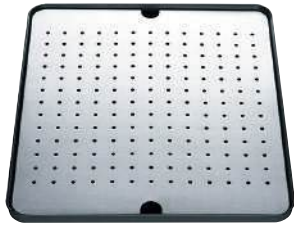

- Attractive drainer with wave-look design
- High level of functionality resulting from the draining effect and the safe support for dishes
- Complements undermount bowls and bowls with the IF low-profile rim

Drainer, quality plastic black-grey for undermount sink

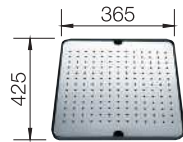

230734

Accessories for BLANCO sink programmes

Additional drain trays

- When placed on the worktop, the draining tray can replace a drainer
- Provides enough room for washed items
- Made of high-quality plastic with a stainless steel insert
- Ideal when combined with a single or double bowl

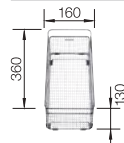

Draining tray with stainless steel insert
Stainless steel/plastic, black

513485

Multifunctional baskets

- A practical complement for bowls and sinks
- Particularly suitable for washing fruit or vegetables
- Appropriate for bowls and sinks with a bowl length of 400 mm
- Made of high-quality, easy-care stainless steel

Multifunctional basket stainless steel
360 x 160 x 130 mm
for SUBLINE

223297

Crockery baskets with plate stacker

- Can be used in or next to the sink
- Comes with a practical plate stack
- Made of high-quality, easy-care stainless steel

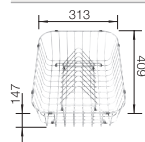

Plate stack (removable)

507829

Accessories for BLANCO sink programmes

Cutting overlays

- Suitable for dishwashers 65°C
- Cutting overlay protects knives and chopping board
- Suitable for food use
- For universal use on BLANCO chopping boards

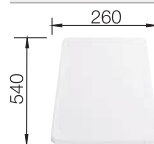

Flexible cutting pad

FOR ANY REQUIREMENT.

BLANCO installation solutions.

Installation from above

Classic installation from above with a conventional profiled rim.

- Large selection of sinks in stainless steel, SILGRANIT and Ceramic
- Suitable for all worktop materials
- Uncomplicated and quick installation

BLANCO PLEON 8, Silgranit volcano grey

Flat rim IF

Elegant and modern look thanks to the almost flushmount appearance.

- Wide product programme of stainless steel sinks with the flat rim IF
- Lay-on installation option is ideal for laminate worktops
- One model, two installation options
 - Installation from above, top mounted (safe and quick mounting)
 - Flushmount installation

BLANCO LEMIS XL 6 S-IF, stainless steel

Flushmount installation

Visual unity between sink and worktop with no irritating edges – functional and contemporary.

- Wide selection of Silgranit® models with special rim design for flushmount installation
- Recommended for worktops in natural or artificial stone
- Permanent and safe connection of sink and worktop thanks to mechanical supporting elements and the jointing with sealant

Flushmount detail of BLANCO AXIA III 6 S-F, Silgranit white

FOR ANY REQUIREMENT.

BLANCO installation solutions.

Flush undermounted installation

Almost smooth installation from below for a modern and elegant look.

- Suitable Silgranit® products are marked with the FU symbol.
- Suitable for laminate worktops
- Extremely long-lasting adhesion using casting resin in a precisely-made worktop cut-out

BLANCO ZENAR XL 6 S-F, Silgranit white

Undermount

Smooth, continuous installation of bowls and sinks for a harmonious overall impression.

- Suitable for worktops in natural or artificial stone, ceramic or glass
- Special supporting elements are used to secure the sink to the underside of the worktop, then it is jointed with sealant

BLANCO SUBLINE 700-U, Silgranit white

How-to videos with practical tips for the kitchen specialist

How do you install a flushmounted sink?

Do you have any tips for caring for our sinks? How can I make an additional hole in a Silgranit sink?

Find answers to these and other questions in our How-to videos in the Internet.

INSTALLATION EXAMPLES.

BLANCO installation options.

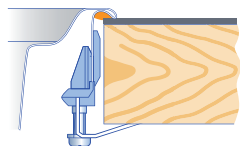

Installation from above

In this process, the sink is placed inside the sink cut-out from above.

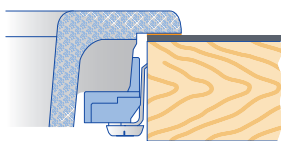

BLANCO stainless steel sinks with a profiled rim are sealed at the works; sinks made of Silgranit® or Ceramic are given a layer of sealant on-site.

Silgranit and stainless steel sinks are secured to the worktop from below using securing elements; Ceramic sinks are simply placed on top of it.

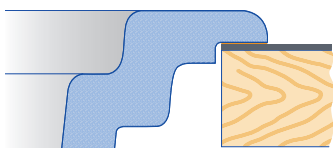

Stainless steel

SILGRANIT®

Ceramic

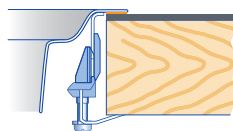

Flat rim IF

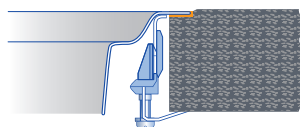

In this process, the sink is placed inside the sink cut-out from above. A layer of sealant is applied under the rim of the sink before installation. The sinks are secured to the underside of the worktop by securing elements.

The flushmount installation of IF sinks correlates to the classic flushmount installation method.

**Stainless steel:
Installation from above, flat lay-on**

**Stainless steel:
Flushmount installation**

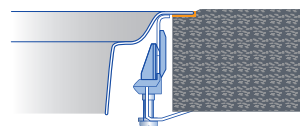

Flushmount installation

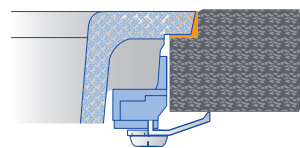

For the flushmount installation method, the sink is fitted from above. We have various special designs with a specific rim for this option.

A groove is worked all around the worktop and filled with sealant. The sink is placed in the sealant and then secured to the worktop from below using supporting elements.

Stainless steel

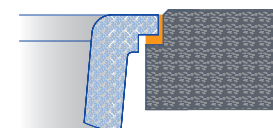

SILGRANIT®

Note: Milling may differ from illustration depending on model (0° instead of 15° as shown). Please note model-related cut-out data at blanco.com.

Ceramic

Cut-out information can be found in our internet download.

INSTALLATION EXAMPLES.

BLANCO installation options.

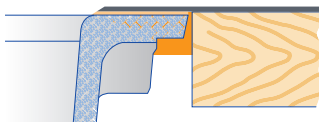

Flush undermount installation

For the flush undermounted installation method, the sink is mounted from below. BLANCO flushmount models are suitable for flush undermount installation.

With laminate worktops, the carrier material is milled away around the cut-out and all the way to the top layer.

Adhesive is applied to the rim of the sink, which is then placed on the laminate. The sink is permanently bonded to the worktop by additionally applying casting resin from underneath.

SILGRANIT®

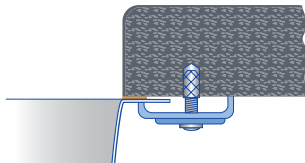

Undermount

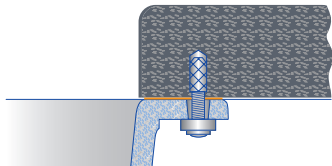

BLANCO's special undermount bowls can be fitted from below in non-water drawing worktops in natural stone or composite materials. Thin worktops < 20 mm require an additional lining. A layer of sealant is applied between the rim of the sink and the bottom edge of the worktop.

The sink is attached to the worktop by special supporting elements. Special dowels are used for screw attachments in worktops made of natural stone or composite materials.

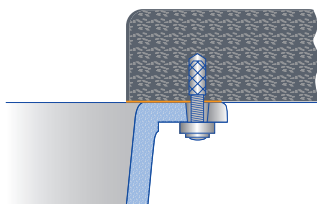

Stainless steel: Undermount bowls

SILGRANIT®: Undermount bowls

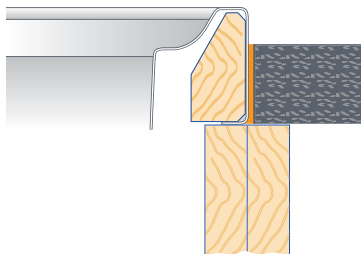

Ceramic: Undermount bowls

In-between module

In-between modules replace the worktop over a defined width. The module is placed on the sink cabinet and secured by screws. Depending on the planning situation, the worktop material is placed to the right and left and a layer of sealant applied.

Advice for installation of BLANCO SUBLINE ceramic:

- Minimum depth of drilled hole 15 mm
- Minimum depth of worktop 25 mm
- Maximum overlap of worktop 5 mm

THREE LINES – COUNTLESS POSSIBILITIES.

BLANCO drain remote controls.

The new freedom in choosing the perfect drain remote control. Optional features have never been more exciting. Thanks to the many possibilities that the BLANCO remote control range offers, the kitchen water place can now be designed to be even more individual and unique.

ADVANCED drain remote controls

BLANCO PushControl is control at the press of a button. Thanks to the intuitive pushing motion, the cleverly thought-out mechanics control the drain easily, precisely and reliably. The 3mm-high flat design integrates itself unobtrusively yet at the same time strikingly into any sink set-up. The high-quality, elegant model enhances any kitchen by adding a valuable, functional touch.

DESIGN drain remote controls

DESIGN remote controls are the perfect match for mixer taps that are an eye-catching feature in any kitchen. As a unit, developed with superb Design mixer taps, they tell a story of quality, harmony, a feeling for life and a love of special aspirations.

COMFORT drain remote controls

The COMFORT remote controls are a plus for any sink centre. They provide reliable control of the drain from the outside. That's modern convenience for all work at the sink centre, with a wide range of surface options and two reliable operating concepts: Turn or pull – it's entirely up to you.

A VARIETY OF RETROFIT OPTIONS.

The perfect drain remote control in 2 steps.

Step 1: Define the initial situation and order the appropriate retrofitting kit.

InFino-drain system		Standard-drain system	
			
 InFino drain system WITHOUT remote control	 InFino drain system WITH remote control	WITHOUT remote control Drain valve without Bowden cable	WITH remote control Drain valve with Bowden cable
+		+	
Retrofitting of a remote control Retrofitting set InFino 232459	No retrofitting set necessary Go straight to Step 2 and select an ADVANCED , DESIGN or COMFORT control element	For retrofitting a remote control for a 3 1/2" spout. The retrofitting set part number depends on the sink type and delivery date. Visit www.blanco.com/sos	No retrofitting set necessary Go straight to Step 2 and select a DESIGN or COMFORT control element
			

Step 2: Choose a control element from the complete range:

ADVANCED remote control (exclusiv for BLANCO InFino)

Please note that the **ADVANCED** remote controls can only be used in conjunction with InFino drain system.
