# THE BEST MOMENT OF THE DAY

Maybe you've spent hours in a successful meeting,  
Or played a gruelling five-a-side football match with your friends.

Perhaps you've been on your feet all day shopping,  
Or out travelling to explore wonderful new locations.

All these things require effort.

They are the exciting yet small adventures of everyday life.

The ones that give you real pleasure, purpose and a  
feeling of fulfilment.

As great as they are they can also be tiring.

Now is the time to turn an exceptional or a tiring day  
into a perfect one.

The moment that refreshes you to face new challenges tomorrow.

Your Hot Tub Jacuzzi®.

It's not just a matter of hydromassage technology,  
we're talking about real science that produces  
authentic, all-round well-being.

It's the best moment of the day.

**WHEN  
HYDROTHERAPY  
IS A 65-YEAR STORY  
THAT BELONGS  
TO HISTORY.**

FIND OUT HOW IT  
ALL STARTED

# BRAND STORY

When the seven Jacuzzi brothers emigrated from Italy to the United states, they had no idea that a pump they designed for orchards would revolutionise hydrotherapy in the home. And while the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness pioneered an industry.

**ROMAN BATH**  
the first whirlpool bath in the world.

1968

**J-TWIN**  
the first Jacuzzi® model to combine the comfort of a bath with the convenience of a shower.

1992

**MORPHOSIS**  
top design, top technology: launching of the first line designed by Pininfarina.

2004

1956

Introducing the spa: Candido Jacuzzi invented the J-300® pump, the first portable hydrotherapy device to be applied to a household bathtub.

1986

**DESIGNER COLLECTION**  
the first Jacuzzi® collection made entirely in Italy, from design to production.

1993

**A SHIATSU MASSAGE IN WATER**  
Jacuzzi® develops new, exclusive technology and launches the first shiatsu hydromassage system in a bath.

2006

**AURA**  
a new range of tubs that can be customised with wood, marble and other precious materials.

**AQUASOUL and AQUASYSTEM®**  
 innovation transforms hydromassage into noiseless wellness while technology fully customises its functions.

2008

**TARGETPRO™**  
 flow-rate, intensity, direction, slant: hydromassage now offers unprecedented customisation heights.

2012

**ARGA®**  
 the ARGA® design is fluid and minimal to complement the gentle, soft and enveloping Swirlpool® bathing experience.

2019

**LOUNGE**  
 seven refined and elegant models in free-standing, corner and wall versions.

DISCOVER  
 OUR STORY

A woman with her hair in a ponytail, wearing a white tank top and dark pants, is sitting in a meditative pose on a dark, rocky cliff edge. She is looking towards the right. The background is a clear blue sky with some clouds near the horizon. A large, light blue rectangular frame is superimposed over the scene, containing the text.

**WELLNESS  
CAN NOW BE  
MOULDED AROUND  
YOUR DESIRES.  
FIND OUT HOW.**

Whatever your idea of wellness may be, Jacuzzi® has it for you. But if you really can't wait to find your perfect bath or shower, simply choose what you could never do without. Your wish will come true straight away.

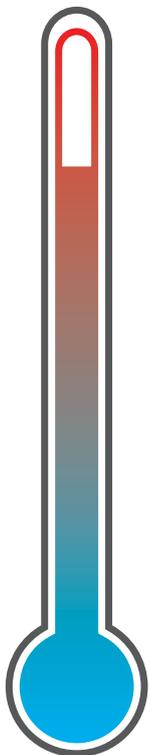

## “Water heals.”

This statement belongs to Sebastian Kneipp, a 19th century Bavarian priest who laid the foundations of modern hydrotherapy, a healing method based on many ways of applying water.

In particular, hydrotherapy uses full or partial showers or baths to warm or refresh the body.

The healing action is achieved thanks to the temperature of the water. The purpose of this treatment is to stimulate the body's natural self-healing mechanisms through alternate applications of hot and cold water.

The first reaction, which is skin deep, is then transmitted to tissues deep inside the body that are connected to the surface by means of the nervous system. Although a hot bath may be exhilarating at first, its aftermath may be stressful for the body. The water temperature must be adapted to the duration of your bath. Above 37°C water is classified as hot; at 40°C it is very hot and over 46°C it becomes unbearable for more than a few seconds.

### 40°C **Hot water**

up to

Very relaxing, induces drowsiness and sleep.

### 34-38°C **Water at body temperature**

up to

Reduces tension and favours sleep.

Sweating, which cleanses the skin and body and helps to eliminate lactic acid, is stimulated by adding bath salts.

### 33°C **Lukewarm water**

up to

Helps eliminate water retention.

### 27°C **Cool water**

up to

Alleviates fatigue.

### 18°C **Cold water**

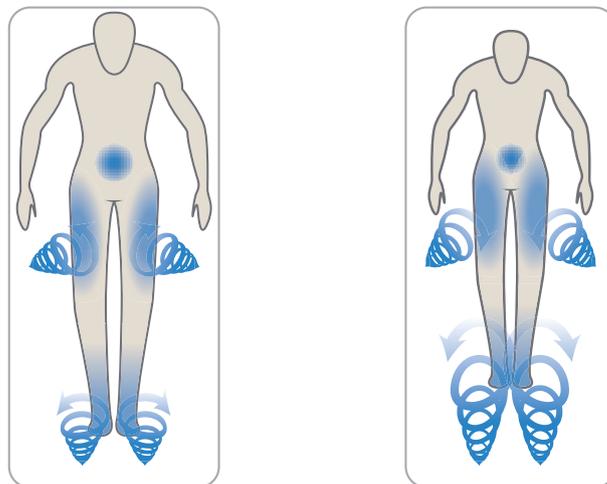

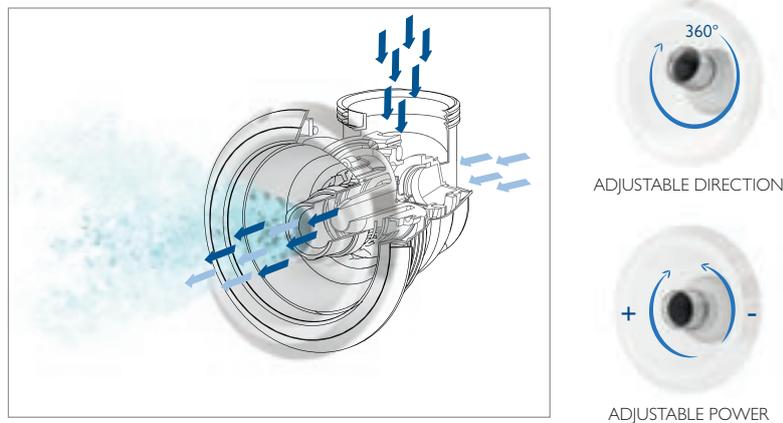

up to

Aids muscle recovery after physical exertion.

## Hydromassage designed to be the best in the world.

There must be a reason behind the famous name Jacuzzi® has made for itself as the best hydromassage in the world. In fact, there are plenty of reasons: the TargetPro™ jets for instance, developed to deliver a targeted massage to each body area thanks to a perfect mixture of air and water.

Both their power and direction can be fully adjusted for an effective massage, no matter what your requirements may be.

Change the direction of your jets through 360 degrees to treat specific body areas with a perfect mixture of air and water. Rotate the jets to adjust their power or turn them off altogether.

WATCH THE VIDEO

### **Just the right temperature for wellness.**

A hydromassage is truly perfect when it strikes the right balance between the temperature of the water and the duration of the bath. Heat is the ideal ally of psychological and physical relaxation but it can also cause excess stress.

The general rule is: the higher the water temperature - that should never exceed 40°C - the shorter the hydromassage.

Recommended temperatures and durations:

**38°C - 40°C**  
10 minutes

**36°C - 38°C**  
15 minutes

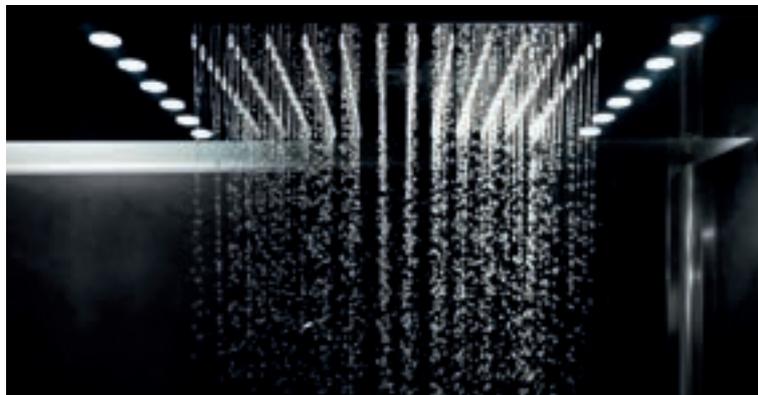

**34°C - 36°C**  
20 minutes

As well as whirlpool baths, Jacuzzi® also offer a wide range of non-jetted baths. Total immersion in water at various temperatures has beneficial effects on the mind and body. You can even complete each treatment with essential oils and salts for a really unbeatable wellness experience.

### Shower and steam bath. Your wellness centre.

Raindrop, Scottish, cascade...there are all sorts of showers but those produced by Jacuzzi® can easily be summed up in two words: wellness centre. The adjustable jets, that can be directed to any body area, deliver the benefits of an authentic, relaxing and regenerating treatment for the mind and body. Jacuzzi® hydrotherapy has been designed to satisfy all your requirements: it firms the skin and keeps it supple, promotes proper blood circulation and even fights cellulite.

You can take a purifying steam bath, cleanse your skin in

depth, boost your respiratory system and take off again with renewed energy. The steam bath, also called “hammam”, uses dry steam and differs from a sauna because it requires an environment saturated with hot air at 40-50°C and 100% humidity. This treatment strengthens your immune system, speeds up your metabolism and improves blood circulation. When paired with aromatherapy it delivers awesome benefits for your mind and body. In other words, wellness is just a Jacuzzi® away. And we keep our promises.

### **The shape of wellness: Swirlpool®.**

The ARGA® design is fluid and minimal to complement the **gentle, soft and enveloping Swirlpool® bathing experience.** Different styles and installations offer adaptability. The design offers a warm, oval, reassuring shape - an ancestral nest, of sorts - born to eliminate the perception of time and lull the bather with **swirls of water and integrated jet lighting.**

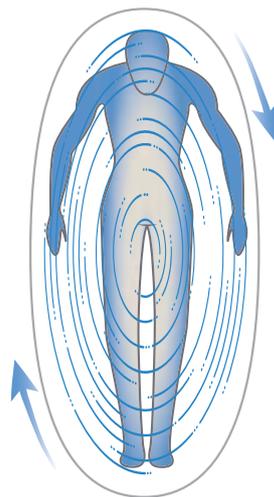

**Illumatherapy™** features infuse the water with a warm and magic glow. The touch pad complements the bath with a modern design style and three control icons. It serves as a meaningful ARGA® design element, by blending elegance, performance and comfort.

**Dive in time: ARGA®.**

Time and water have much more in common than expected - they both flow in harmony within the universe of ARGA®, the revolutionary Jacuzzi® bath experience intended to redefine the world of personal wellness.

With the **new Swirlpool® technology**, the bath experience emulates that of an enveloping, heartfelt embrace, or that of full immersion in a silent creek, all while deeply connected with nature. Thanks to the delicate swirls created by the colored water jets and the constant bath water temperature, the ARGA® experience becomes multi-sensory and fully immersive.

THE MOST  
EXCLUSIVE WELLNESS  
EXPERIENCE  
IS ALSO THE MOST  
PERSONAL.

A community often forms around something precious - something primitive that unites individuals with different origins, lives, dreams and stories. Time is the most valuable resource to the ARGA® community: rather than being measured by the hands of the clock, it is counted by your own heart's pulse. It's a vertical and emotional time, defying the daily stresses by introducing slow and delightful experiences. In the ARGA® community, every single moment has special value: welcome.

Jacuzzi® baths are made of methacrylate: a gloss or satin finish non-allergenic material.

The baths feature non-slip bottoms and are fade resistant. Warm and comforting to the touch, methacrylate is an extremely tough product with outstanding acoustic and thermal insulating powers, helping keep the water temperature constant for longer.
